Summary of Discussion

Unit Managers Meeting: 2727-S NRDWSF
November 12, 1991

The meeting was opened at 10:00 am with a discussion of status of revision 3 of the Closure Plan. WHC (Wilczek) stated that he has sent the closure plan, with all WHC comments incorporated, to the technical publishing department (tech pub). He expects to have the corrected document to RL by the weeks end or the middle of the following week (no later than November 20th). Ecology (Witczak) stated that he would not have time to review it until early January, 1992 at the earliest.

The following topic of discussion concerned the status of facility sampling and removal action. WHC (Wilczek) stated that they are awaiting word from USPCI (disposal facility) on the building waste profile. WHC had received verbal information from USPCI indicating that there did not appear to be any problem with accepting the waste. Ecology (Witczak) would like to receive a copy of any paperwork sent by USPCI regarding waste acceptance.
